Profile

6x Salesforce Certified Developer (Platform Developer I and II, Platform App Builder, Platform Administrator, Marketing Cloud Engagement Specialist and Administrator) building on Apex, LWC, and Flow, with **8+ years of frontline SaaS operations and team leadership** (supervising 60+ people and owning SLA and CSAT targets) behind the code. I develop custom business logic and Lightning interfaces, including Apex classes and triggers, asynchronous processing, Lightning Web Components, and Flow automation, with rigorous test coverage and governor-limit discipline. I also lead enterprise integrations (Clever, ClassLink, OneRoster, SFTP) and design security models across profiles, roles, permission sets, and sharing rules. **Trailhead Triple Star Ranger** with 335 badges and 150,000+ points. I design for the end user and the business process, not just the acceptance criteria.

Professional Experience

01/2026 – Present
Lahore, Pakistan

Arbisoft Pvt. Ltd, *Associate Salesforce Developer*

- Build and maintain Apex classes, triggers, and asynchronous processes (Queueable, Batch, Future) within Salesforce governor limits.
- Develop responsive Lightning Web Components using LWC, JavaScript, and HTML, replacing legacy interfaces.
- Author comprehensive Apex test classes, maintaining code coverage above 80% and enabling clean production deployments with zero rollbacks.
- Design and administer the org's security architecture (profiles, roles, permission sets, and sharing rules), enforcing least-privilege data access.
- Customize standard and custom objects, fields, page layouts, validation rules, and record types to translate business requirements into scalable platform solutions.
- Diagnose and resolve production defects using Developer Console, debug logs, and SOQL analysis, shortening time-to-resolution on recurring issues.
- **Tools:** Apex, LWC, SOQL/SOSL, Flow Builder, Visualforce, Developer Console, VS Code, Git, Data Loader.

05/2025 – 12/2025
Lahore, Pakistan

Arbisoft Pvt. Ltd. (Client: SummitK12), *Integration Specialist*

- Led SIS-LMS integrations for school districts, delivering automated rostering between student information systems and learning platforms via OneRoster, Clever, and ClassLink.
- Configured secure automated data syncing with district IT teams, eliminating manual roster entry for teachers and students and removing a recurring source of enrollment errors.
- Resolved complex integration failures (malformed OneRoster files, SFTP sync breakdowns, and credential mismatches), working cross-functionally with Engineering and Support to restore district access.
- Onboarded and trained school administrators on integration configuration and best practices, reducing repeat support tickets from onboarded districts.
- **Tools:** Clever, ClassLink, OneRoster, SFTP, Canvas, Schoology, Google Workspace.

06/2021 – 05/2025
Lahore

Arbisoft Pvt. Ltd. (Client: edX/2U), *Student Advisor (prev. Support Associate)*

- Resolved escalated and technically complex learner cases for a global online education platform across enrollment, certification, payments, and platform access.
- Served as an escalation point for the support team, diagnosing account, course-delivery, and technical faults and coordinating resolution with engineering.
- Maintained CSAT of 4.5+ across 200+ monthly escalated interactions; previously handled 1,000+ tickets monthly across email and chat while consistently meeting response-time SLAs.
- Escalated systemic platform defects to engineering with clear reproduction steps, shortening diagnosis time on recurring issues.
- Documented recurring issue patterns and resolution paths, contributing to internal knowledge base content used by the wider support team.
- **Tools:** Salesforce, Zendesk.

12/2017 – 06/2021
Lahore

MindBridge BPO (Client: Uber), *Support Team Lead (prev. Customer Service Specialist)*

- Led a team of 60+ agents on the Uber support process, implementing coaching and scheduling changes that reduced shrinkage and attrition during a period of high turnover.
- Achieved a consistent 95% SLA by leading a full revision of Standard Operating Procedures.
- Oversaw daily quality assurance, performance reporting, and CSAT tracking against client-defined metrics.
- As Customer Service Specialist (2017–2021), maintained quality scores above 95% and CSAT above 4.0, supporting customers across MENA, UK, and SSA regions.
- Trained and mentored 2 new agent batches (20+ people) in 2019, several of whom advanced into senior and team-lead roles.

Education

10/2013 – 07/2017
Lahore

BS in Information Technology, *University of the Punjab*

Multiple Semester Projects: Completed several academic projects involving software development and system integration concepts.

Final Year Project: Developed an Android application.

Certificates

Salesforce Certified Marketing Cloud Engagement Administrator
Certified Marketing Cloud Engagement Administrators have hands-on experience configuring Marketing Cloud products by utilizing industry best practices. They understand data structure in subscriber data management and can thoroughly navigate setup.

Certificate on Trailhead

Salesforce Certified Platform Developer I
